To Whom It May Concern,

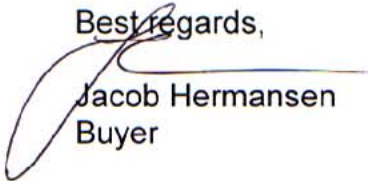

For several years now, Bushnell Performance Optics and Nathaniel Electronics have had a very good partnership, where as BPO has been sourcing electronic products, specific for the sporting goods market.

In those years, BPO has always been happy with the performance of Nathaniel Electronics.

This has created some very user friendly products that have sold very well.

This could not have happened, if Nathaniel Electronics had not been there from development through after sales service.

Best regards,

Jacob Hermansen  
Buyer
